

## PILLOWCASE INSTRUCTIONS

Fabric Requirements:

24" x Width of Fabric of Main Print (27" works also)

12" x Width of Fabric of Companion Print (Cuff)

2 ½" x Width of Fabric of Accent Print (fold in half – wrong sides together and press)

Lay fabrics out as follows:

Companion Print (Cuff) – Right Side Up

Main Print (Pillowcase) – Right Side Up

Folded Accent Print – Raw Edge at Top

Fan fold the main print up to the middle of the companion print and fold the bottom edge of the cuff fabric up to meet its other edge. (You don't want to sew the bottom edge of the main print in the seam.)

When you sew the seam across the layers of fabric, you will have what looks like a tube. Pull the main print out from the inside of the tube. Press this part of the case flat.

To finish the inside with a French seam: With wrong sides together sew a ¼" seam allowance along the side and end of the pillowcase, matching the seams at the accent fabric. Turn the pillowcase to the inside and sew along the seam with a ½" seam allowance.
